

Formula Name METRONIDAZOLE POWD 5% PWD

Initials AP **Quantity** 75 GMS **Schedule** 0 **Days to Exp** 180 **Date of Formula** 7/31/2025
Cost \$1.15 **Cost Per Unit** \$0.02 **AWP** \$0.00 **AWP Per Unit** \$0.00 **Last Review** 1/6/2016

Chemical Ingredients

Chemical Name	Form	Qty	Units	QS	Est Cost	Ha	Note
METRONIDAZOLE USP	PWD	3.7500	GMS	☐	\$0.83		NONE
CORN STARCH	PWD	71.2500	GMS	☐	\$0.32		

Therapy**Description**

Off-white colored powder, uniform consistency packaged in powder shaker canister

Classification(s)Nonaqueous**Disease State(s)****Instructions****A. Calculations/Special Considerations:**

None

B. Equipment Required:

Weigh boat; large spoon, mortar and pestle; rubber spatula; large plastic funnel, shaker and lid

C. Method of Preparation:

1. Calculate required amounts of each ingredient
2. Measure out ingredients
3. Triturate metronidazole
4. Using geometric dilution add corn starch to the metronidazole in the mortar
5. First dilution - add 1 heaping spoonful (~4g) of corn starch to the metronidazole weigh boat, pour into the mortar, then triturate until mixed well
6. Using a rubber spatula scrap the mixture from the side of the mortar
7. Second dilution - add 2 heaping spoonfuls of corn starch to the metronidazole weigh boat, pour into the mortar, then triturate until mixed well
8. Using a rubber spatula scrap the mixture from the side of the mortar
9. Third dilution - add 4 heaping spoonfuls of corn starch to the mortar and then triturate until mixed well
10. Fourth dilution add all remaining corn starch to the mortar and then triturate until mixed well
11. Package in powder shaker canister (Placing a small slit in the white plastic top may allow for easier joining)
12. Label with product label, prepack barcode label, and external use only sticker
13. Have compound certified pharmacist perform final verification

D. Labeling:

Label with lot number and expiration barcode and ingredient(s) label.

External use only auxillary sticker

Initial each stock bottle label (technician and final review pharmacist)

Add prepack label if compound lot made to stock for multiple Rx's

Add Rx auxillary label if compound lot made to order for a unique Rx

_____ (place label here) _____

E. Description of Finished Product:

Off-white colored powder, uniform consistency packaged in powder shaker canister

F. Quality Control Procedures

Physical appearance of compound verified by compounding certified pharmacist

Mass of final product is within 5% of intended batch weight

Appropriate References Should Be
Consulted. Safety And Efficacy Of
These Formulas Are The
Responsibility Of The Compounding
Pharmacist

Final Gross Weight: _____ g - Empty Shaker Weight _____ g = Final Net Weight: _____ g
Acceptable Final Net Weight range for 75g batch = 71.250g to 78.750g

Pharmacist signature: _____
Initial each stock bottle label

G. Packaging Container:
Package in powder shaker canister

H. Storage Requirements
Store at controlled room temperature (68°–77 °F)
Maximum BUD - 180 days

I. Formula Source & BUD Testing
Formulation - OPPC
BUD - USP 795
