Therapy

Description

Clear colorless solution free of particulate matter

Classification(s)

Disease State(s)

Instructions

A. Calculations/Special Considerations:

None

B. Equipment Required:

5ml syringe, 16G needle, Alcohol Pad, sterile gloves, Port cover sticker

C. Method of Preparation:

1. Perform hand-hygiene procedure by wetting hands and forearms and washing using soap and warm water for at least 30 seconds. Dry hands with a lint-free towel.
2. Don sterile gloves and use waterless alcohol-based surgical hand scrub.
3. Clean and disinfect the isolator hood according to proper policy and procedures.
4. Spray down all compounding items (needles, syringes, alcohol pads, stock bottles, etc) with 70% isopropyl alcohol (IPA), dry them and place them in the isolator hood
5. Place a second set of gloves over the gloves in the isolator hood.
6. Disinfect injection ports and stoppers with 70% IPA.
7. Reconstitute Cefazolin with 5ml of sodium chloride inj. (will provide~6ml of solution)
8. Shake vigorously(let set a minute and shake again)
9. Remove 3ml from vial and inject into sodium chloride bag
10. Inspect to make sure no particulate matter remains in bag
11. Add port sticker to bag
12. Label the bag with the appropriate pharmacy label and appropriate auxiliary label.

D. Labeling:

Record Manufacturer, Lot Number, NDC, and Expiration date for Cefazolin

Record Manufacturer, Lot Number, NDC, and Expiration date for stock 0.9% Sodium Chloride Bag

Record Manufacturer, Lot Number, NDC, and Expiration date for stock 0.9% Sodium Chloride Bacteriostatic

Label with lot number and expiration label

Store in refrigerator auxiliary sticker

Add prepack label if compound lot made to stock for multiple Rx's

Add Rx auxiliary label if compound lot made to order for a unique Rx

_____ (place label here) _____

E. Description of Finished Product:

Clear colorless solution free of particulate matter

F. Quality Control Procedures:

Physical appearance of compound verified by compounding certified pharmacist

Appropriate References Should Be
Consulted. Safety And Efficacy Of
These Formulas Are The
Responsibility Of The Compounding
Pharmacist

Container-closure integrity is verified to be free of any defect
Volume of final product is within 5% of intended batch size

Pharmacist signature: _____

G. Packaging Container:

Dispense in IV admixture bag covered by a UV protective foil bag with cold packs

H. Storage Requirements

Store refrigerated (36° - 46 °F)

Maximum BUD - 7 days

I. Formula Source & BUD Testing:

USP 797

Appropriate References Should Be Consulted. Safety And Efficacy Of These Formulas Are The Responsibility Of The Compounding Pharmacist
